Detailed Office Action

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kenneth A. Clark on June 20th, 2006.

The application has been amended as follows:

In claim 1, "consisting essentially of benzene phosphinic acid" has been deleted and "comprising, crystalline benzene phosphinic acid blended with silicon dioxide" has been added.

Claim 2 has been cancelled.

In claim 3 "claim 2 wherein said inert binder comprises silicon dioxide" has been deleted and "claim 1 wherein said silicon dioxide is an inert binder" has been added.

Allowable Subject Matter

The following is an examiner's statement of reasons of allowance:

Claims 1, and 3-10 are allowed because the prior art fails to teach and or/ disclose an invention of benzene phosphinic acid with improved flowability or the combination of

crystalline benzene phosphinic acid blended with silicon dioxide as disclosed in the claims. The closest prior art, EP 0 377 995 A2, teaches a process where coal is briquetted using a binder incorporating phosphoric acid. However, it fails to teach the flowable composition of matter comprising crystalline benzene phosphinic acid blended with silicon dioxide, which are the key components of the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
